THE COMMERCIAL PRINCIPLES GOVERNING THE ENGINEERING OF PUBLIC WEALTH REBATE BANKS, a.k.a., "ROBIN HOOD BANKS".

Public Wealth Rebate Banks LAWFULLY SEIZE AND RECOVER WEALTH (taxes, etc.) stolen by corrupt officials and others engaged in government organized crime, and return it to the common people, the Public, to reimburse and revitalize the common people (Public). These banks bring to mind the legendary character known as Robin Hood, who had the less rigorous more vigorous informal cavalier way of correcting the same social wrongs of Old England. This is the reason for referring to Public Wealth Rebate Banks by the term "Robin Hood Banks"; they paramountly represent the interests of "a government of the people, by the people, for the people". Governments are usually operated by people who do not want to consider the needs of others, hence rule by force, not reason, too often with the result that power corrupts, and absolute power corrupts absolutely. Consequently, governments are not inclined to correct their own evils, and, to the contrary, tend to perpetuate their own evils, and especially to punish those who resist the evils of the government. Understandably, then, Public Wealth Rebate Banks are PUBLIC INSTITUTIONS, necessarily founded and operated by non-government self-appointed (42 USC 1986) public servants who operate as public escrow agents known as Public Proxies, and always under the threat of government retaliation. Public Wealth Rebate Banks are operated: (1) pursuant to the Universal and Eternal Natural Laws of Commerce, (2) pursuant to the U.S. Const. 9th Amendment which guarantees the Natural Right to Exercise Any Self-Defense, (3) pursuant to the social "brother's keeper principle" suggested in 42 USC 1986 and in 18 USC 4, (4) pursuant to the commercial fair market values suggested by 18 USC 241 and 18 USC 242, the fair market values to be levied in commerce against violations against the Public and its Constitutions, and especially against those violations committed by government officers and agents of the Public Trust, and (5) pursuant to the remuneration principles suggested by 42 USC 1994 and 18 USC 1581, which clearly state that whatever the government compels the Citizen to do for society, pursuant to statutory law, less than duty in a foreign war, is labor in the ordinary sense, so the government must stand good for a compensation for that labor in commerce or not expect the Citizen to seriously obey the statutes of the government. Public Wealth Rebate Banks keep a public record of all of their organizational by-laws and commercial transactions, which the public can inspect and copy either during regular banking hours, or by ordering information to be sent to them, without filing any formal requests for information. Public Wealth Rebate Banks are Charitable Public Trust Foundations engaged in generating, screening, processing, and directing Commercial Affidavits of Obligation known as Commercial Liens. (A Common Law Lien is inferior to a Commercial [Law] Lien in that a Common Law Lien does not contain EXPLICIT LEDGERING, hence relies upon the discretion of a Jury to decide the obligation.) Generally, Public Wealth Rebate Banks acquire their assets through lawful public claims made by way of Affidavits of Information (Criminal Complaints) (1st Amendment guaranteed petitions) against corrupt public officials, et al, who, by their failure to respond within 3 months (90 days), admit, by default, their public contempt, Public Wealth Rebate Banks engage in the lawful their public guilt and their public liability. altruistic/charitable disbursement of public malpractice default judgments to the Public, by generating a Commercial Lien Assignment Currency known as Public Wealth Rebate Notes, establishing, thereby, a lawful method for the Public to lay Claim to the real and moveable property of the Lien Debtor party(ies). Therefore, Public Wealth Rebate Banks are lawful Commercial (1st Amendment) Demand Note Currency Banks. Money is a social symbol for the existence of the intrinsic social survival value of mankind, a symbol for the Sun's daily delivery of energy to the Earth via agriculture, hydroelectric power, etc., and a symbol for the capacity of HUMAN LABOR to use information and intelligence to gain amplified access to Nature's resources of energy. The intrinsic value of the human labor of a population to amplify energy access, is represented by Population Notes or Allowance Notes, which are of the First Class of Notes. Commercial Notes are of two types or classes, namely, Population or Allowance Notes, and Promissory Notes. Allowance Notes are a public statement of the intrinsic worth of the common people of a society and, in accordance with the Equal Protection Maxim of Commercial Law (Matt. 5:45), can only be spent into circulation on an equal per person per day basis by the common people, and then only to create a currency to meet the ordinary need to have something to use for buying, selling, etc... Allowance Notes must be generated only by public governments, and the distribution of such Notes to the public for the public to spend into circulation must be kept to a minimum by that government to prevent destruction of the motivation to do labor. Any attempt on the part of governments or private corporations (e.g., the Federal Reserve Corporation) to spend or loan Allowance Notes into circulation is a felony, hence cannot create a National Debt. A Promissory Note, a Second Class Note, is a written promise to pay or repay a specified sum of money at a stated time or on demand. There are no statutory limitations on Promissory Notes because they do not act as Allowance Notes to create new money for circulation, but merely serve to transfer the value of money which already exists. A Public Wealth Rebate Note is a Reversed Party Promissory Note, a Demand Note, made by a Creditor or Claimant against a Debtor, based on the Debtor's breached promise to pay or to perform. --H. THE COMMERCIAL PRINCIPLES GOVERNING THE ENGINEERING OF PUBLIC WEALTH REBATE BANKS, at a "ROBIN MOOD BANKS". Public Wealth Rebate Bares LAWFULLY SELZE AND RECOVER WEALTH I takes, etc. I stoken by corrupt officials and others engaged in government organized crime, and return at to the common people, the Public, to reimburse and invitable the common people (Public) These banks bring to mind the legendary character known as Robin Hood, who had the less ingorous more wigorous informat cavater way of correcting the same social wrongs of Old England. This is the reason for reneming to Public Wealth Robite Banks by the term "Robin Hood Banks"; they paremountly represent the interests of "a government of the people, by the people for the people". Governments are usually operated by people who do not want to consider the needs of others. hence rule by force, not reason, too does with the result that power compts. hence rule by force, not reason, too often with the result that power compts, and absolute power compts absolutely.
